Hello Michael,

For a 6-month progress report, your tracking spreadsheet has approximately 120 items. I have entered everything you've passed along so far. Copy is attached. The document is still in my database, not on the shared drive, but it can easily be copied or transferred to the G-drive. I have kept the size to a letter-sized document, landscaped, but easier to print than legal-sized. The spreadsheet can always be revised if you want additional columns, or fewer fields, or whatever. Please let me know if you have any questions, otherwise just keep them coming!
